

“Someone Could Listen” Presentation

Graphic Organizer

By the end of today, I will be able to...

- Identify the difference between a private network and a shared network, and describe some of the potential risks of using a shared network.
- Describe how encryption decreases the chances of outside parties eavesdropping on private communications and accessing private information.

Principle: _____

Encryption Notes

What’s an <i>encryption</i> key?	What’s a <i>decryption</i> key?	What are the three main steps in an encrypted communication? 1. 2. 3.
----------------------------------	---------------------------------	--

My Protection Toolkit -- How does it work?		
HTTPS:	Strong passwords:	Firewalls:
Security/anti-malware software:	VPNs:	Proxies:

Extend Your Thinking!

Name one way an online <i>security</i> breach could compromise your online <i>privacy</i> .	Name one way an online <i>privacy</i> breach could compromise your online <i>security</i> .
